

Amendment to the Specification

Please amend the Title of the Invention to read as follows:

**APPARATUS AND METHOD FOR DELIVERY OF NETWORK-SPECIFIC
CODES TO A MOBILE NODE**

Please amend paragraph [0004] of the application, which is the first full paragraph in the Background, with the following amended paragraph [0004]:

[0004] The use of ~~modern~~ modern communication systems through which to communicate is a necessary aspect of ~~modern~~ modern society. Communication of data is required to effectuate many varied functions and services. The data that is to be communicated pursuant to such functions and services must sometimes be communicated, quickly and accurately, between widely dispersed locations.
